

Proposed Distributed Generation Policy 300.11

- All existing solar will be “Grandfathered” until Dec 31, 2024.
 - Full retail rate, up to annual consumption
 - Solar production beyond annual consumption - no reimbursement
 - System installed after XXX, 2020 will also be Grandfathered retroactively
 - Raise the limit from 20kW to 40kW to match the DPC policy
- 20 year contracts beginning Jan 1, 2025 for existing solar
 - 90% of retail rate, up to annual consumption
 - Solar production beyond annual consumption - BEC’s annual wholesale energy cost (currently approximately \$.035/kWh)
- New solar after Jan 1, 2025 will sign 25 year contracts with terms set by the Board and subject to periodic review
 - Defined as a % of retail rate, up to annual consumption
 - Solar production beyond annual consumption - BEC’s annual wholesale energy cost

Revised Policy 300.11 to be approved this Summer or Fall
